

# IMPROVING AVIATION SAFETY: AN AIR TRAFFIC CONTROL PERSPECTIVE

Joseph Teixeira, **Vice President, Safety & Technical Training**

**FAA**  
Air Traffic Organization

# MAKING THE BEST BETTER

**FAA**  
Air Traffic Organization

# INCIDENTS ARE RARE BUT IMPORTANT

A large red circle with the text "INCIDENT REPORTING" in white, bold, uppercase letters.

## INCIDENT REPORTING

- Incidents provide valuable data that we use to improve safety in the NAS
- Incidents are investigated and analyzed
- Corrective actions are taken to mitigate risk

**FAA**  
Air Traffic Organization

# DATA DATA DATA

- Waiting for incidents to become known is reactive
- Our Safety Management System is proactive
- We value and need more data

**FAA**  
Air Traffic Organization

# SAFETY MANAGEMENT

PROACTIVE RISK MITIGATION

**FAA**  
Air Traffic Organization

# I. VALUE EMPLOYEE SAFETY CONTRIBUTIONS

- Voluntary Safety Reporting Programs
  - ATSAP
  - T-SAP
- Partnership for Safety

## II. IMPROVE TECHNOLOGY TO GATHER DATA

- TARP Software — provides an integral replay that displays events and their associated closest proximity
- CEDAR Software — facilitates reporting by managers
- DALR Software — enables replays with voice
- OEDP — OI Detection Program (En Route)

IOIOI

**COMPILE**

**FAA**  
Air Traffic Organization

### III. ANALYZE AND IDENTIFY RISK

- Identify Top 5 Hazards via Risk Analysis Process (RAP)
- Improve Quality Assurance, Quality Control and Reporting
- Align Analysis Coding across Multiple Data Sources
- Identify Trends

## ANALYZE

## IDENTIFY

## REPORT

## COMPILE

**FAA**  
Air Traffic Organization

# IV. EMBRACE CORRECTIVE ACTION

- Create an Adaptive Culture
- Become a Learning Organization
- Identify the Top 5
- Issue Corrective Action Plans

**IMPROVE**

# REACTIVE AND PROACTIVE DATA

## REACTIVE (LEGACY)

**5,000**

Approximate  
operational  
incidents over  
3 years

## PROACTIVE (SMS)

**58,000**

- 58,000 Voluntary Reports
  - 160 ATSAP Positives
  - 91 Corrective Action Requests
  - 60% of Controllers have filed a report
  - 300-350 reports/week
- Top 5 Hazards
  - 19 Corrective Actions
